# EUROPEAN STRATEGY FOR UNIVERSITIES

SUPPORTING AND ENABLING HIGHER EDUCATION INSTITUTIONS ACROSS EUROPE

# Four key objectives

## 1 Strengthen the European dimension in higher education and research

Bringing transnational cooperation to a higher level contributes to a culture of excellence and inclusion, a true European identity, and global competitiveness and attractiveness

## 2 Consolidate universities as lighthouses of our European way of life

**Strengthen quality and relevance for future-proof skills**

*In a fast changing environment, universities need to strengthen their capacities to equip young people, lifelong learners and researchers with the right competences and skills*

**Foster diversity, inclusiveness and gender equality**

More institutional changes are needed for universities to become places of truly equal opportunities

**Promote and protect European democratic values**

Universities need to be places of freedom: for speech, thought, learning, research

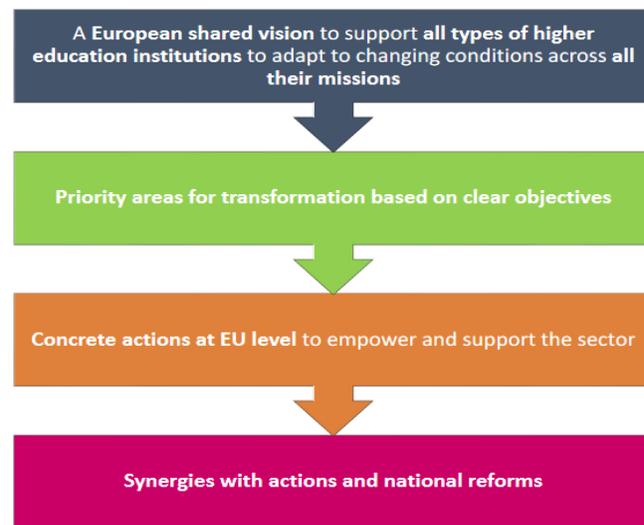

## 3 Empower universities as key actors of change in the twin green and digital transitions

**Develop skills, competences and technological innovation for the green and digital transition**

Universities are key actors for the green transition and for a more sustainable world. We need to make 'connected universities' a reality

## 4 Reinforce universities as drivers of Europe's global role and leadership

Universities are instrumental in building Europe's connections with the world
